

## Section 2

### Chapter 10 - Social Media And Education. Main Challenges, Strengths And Weaknesses Of Mobile Apps In Education

## Exemplary case 3

Title: **Safer.internet.at**

#### Description:

Saferinternet.at is an initiative from the EU developed within the programme “CEF Telecom/Safer Internet.

The initiative focus’ on teacher, parents, children and young people to work with them together on strategies how to use the internet efficient and in secure way.

Teachers find a broad variety of tools they can implement in classrooms. Saferinternet.at employees are offering workshops in elementary and secondary schools on related topics.

Possible topics could be:

- Secure usage of smartphones and tablets
- Self-presentation on Social Media
- Online-Shopping and internet-fraud
- Digital gaming
- Cyber Mobbing
- Securing privacy online
- Sexuality & internet
- Social Media
- Data protection

- Copyright and source criticism
- Internet and democracy

Furthermore the teachers find quizzes, exercises, presentations and more helpful links to educate these topics in class by themselves.
